GILLARD'S SHEEP DIP

This Dip is most carefully prepared by the latest improved methods and can be used with

Supplied to the Prince of Wales's Farm at

SANDRINGHAM.

TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

PAMPA LANGUAGES

Whilst the Board of Education and Sarmiento were fighting over prerogatives and swindling, an old friend, Dr J M Larsen, has been devoting his leisure hours to the study of the Indian languages of this country, and we may say, of this continent. Strange to say that in a question of such importance he stands alone, and no other philologist rises to help him in his studies and investigations. The study of these languages involves something more than the philological importance all will attach to it, since the 'amour propre' of Argentines is linked to same. The only original characteristics of the Argentine Republic, taken from a European stand-point, are those of the Pampa Indians; these speak American, live and die American, and are thereby something off the common in these days when high-heeled boots invade the Pampa and white hats scare the gama and the ostrich. Gradually European civilization is driving the Indian back, and he will soon disappear, and it is a comparatively easy task for scientists to-day to gather before his extinction some information as to the Indian languages, spoken in the Pampa. In the next generation these studies will be much more difficult, and in the next century we may well anticipate that the only Indian features of the Argentine Republic will be those perserved in a B. Aires National Museum, in the shape of embalmed Caciques and squaws, old bows and arrows, stone swords and old skulls, etc. Now is the time for the Argentine philologist and archœologist to work, and Dr Larsen shews the way to the younger and inexperienced men.

Dr Larsen, talking of the pampa languages, first puts the question whether there is any such thing as a pampa language. From a philological stand point there is no pampa language no more than there is an Argentine language, although in a political sense same may be attributed to the country or to the province. It is a really melancholy fact that the Argentine Republic has no language of its own, like the Kingdom of Honolulu, or of Dahomey, and since pedagogues are to meet at the Continental Exhibition, it might be as well to moot the proposal of a new Argentine language to the learned gentlemen. Certainly it is far better for them to lay down the rudiments of a new grammar and of a new language than to lose time over exploded arguments. We already foresee the topics that the pedagogues will discuss, perpetual peace, motion and talk. Let them strike out into something new. Argentines have a national dress, a national dish, a national type, and they only lack a national language: this is a worthy task for the pedagogues, and we advise them to study the long list of Indian grammars noted by Dr Larsen, that they may not grope about in the dark in 'terra incognita.' It would have been far better for the Board of Education and for the Superintendent if they had broached this all-important topic, instead of throwing mud at each other.

Talking of the pampa Dr Larsen dwells on the etymology of this original word in the following languages, the word may be said to be—

Aimara........... bamba
Quichua........... pampa
Latin........... campus
Teutonic........... kamp
German........... kampf
Sanskrit........... kampa

As all know the Greek p is often changed to c, and Dr Larsen has hit the nail upon the head. We call the Indians South of Buenos Aires Pampa Indians, with as much right as the Romans called the Teutons Germans, and Columbus called the inhabitants of this continent Indians. South of Buenos Aires, down to Tierra del Fuego, there are three Indian languages: the Araucanian, the Puelche and the Tehuelche. The Araucanian is the language of the pampa indians. These languages are very different from each other, and cannot be termed what we generally understand to be dialects, as Mr Larsen says. They may spring from a common source, as the Italian, the Spanish and French, but the difference between the Puelche and the Araucanian is greater than that existing between French and Spanish.

Dr. Larsen publishes a seires of words in the three diffirent languages to illustrate his assertion. The vetran educationist is laying the foundations of a great science in Buenos Aires: philology has a great future here, because it has a vast field to study, innumerable Indian dialects and languages. The question is to know if there are men willing to follow in the footsteps of Dr. Larsen: we believe that there are a few like Lista and Moreno, who may yet throw much light on languages that are yet shadowed in mystery to the world at large, although the races that speak them roam about the south of this Republic and of Chile. As we stated before the conference of pedagogues at the Continental Exhibition should beging operations at least in the study of the languages of this Republic.

TRIP TO THE RIO NEGRO

THE CAMPS

The estancia of San Blas is one of the oldest in the district of Bahia Blanca or Patagones; fifty years ago the Crespos had 5,000 head of cattle on the land, and in the year 1835, Mr. Atkins's brother had a 'rodeo' of 2,000 head of cattle; owing to its being completely surrounded by water when the tide is in, the estancia is a kind of corral fenced in by nature. The bay is unsurpassed by any in the Republic, and will ere long become a station of great importance. Five buoys are needed to mark the channel, which at low water gives 11 fathoms all the way up. In former years, that is in the early part of the century, the American captains used to make it a sealing station, and there are still on the land two immense iron tanks used for that purpose. Tradition gives out that a great treasure of 150,000 Spanish doubloons is buried in the valleys of the Medanos near the sea. A Spanish slaver pursued by an English man-of-war put in here, and the captain buried the treasure, and afterwards escaped through Anejado Bay; but was afterwards caught and hanged from the yard-arm. Several expeditions to look for the treasure have been made. Don Manuel Crespo spent 15 days one time in the search; even Captain Spurr, Commander of the Villarino, years ago joined an expedition, but to the present nothing has been found. I left my two cousins P. Mulhall and J. Rae at the estancia for vacation, and they, fired with youthful enthusiasm, are busy hunting for the hidden 'botijuelas.' A large Medano or hill lifts its tall head over the pebbly beach, and strange to say this hill appears to be composed of an immense collection of bones, which no one can account for. The view from one of the hills near Rubio Point, at one end of the land, reminded us of Killiney Hill outside Dublin. Mr. Peyrano who lives on the Isla de Gana, in front, informs us that in the bay there are millions and millions of oysters, but our time was too short to admit of a search for the oyster-bed. We picked on the beach, however, more oysters shells than we could conveniently carry home; and brought back samples of shells, pebbles, sea weed, sponges, &c., which we hope to have subjected to the microscope of a friend in Flores. As the Villarino was posted to leave on Saturday at daylight, we were compelled to return that afternoon so as to lessen the road for next day. We left the estancia at 4 p.m., and drove back to the pass, and then crossed into the Rincon Belloso which is the finest land we have seen in our travels, and which we have renamed, calling it the Rincon de Eliza. A wire fence drawn from the sea to the Arroyo, in a straight line of about 1¾ league long, locks in about 6 square leagues of the best land to be found in the Province. It was sundown when we reached Mr Buckland's and here we stopped for the night. We rose next morning at 10 minutes past 2 o'clock a.m. rather early, and before noon that day, we had breakfasted 17 times on cold "carne con cuero"; the appetite one gets out there in those camps is really most astonishing. On the first day of our excursion we took 94 'mates' and 13 ham sandwiches, and that night eat for supper nearly a whole leg of mutton. The bracing air from the sea, the healthful exertion of riding over one's own land, the freshness of scene, and the newness of everything give fresh tone to the stomach. Spite of all we ate and drank on the journey, when we arrived that night at Patagones, we were well pleased to find a good hot supper at the hotel. Davison and Kincaid,

who formed our party, outrivalled the gauchos in their relish for the "carne con cuero."—On the way back we called up to Don Manuel Crespo's estancia, and slept siesta there; it is one of the finest and best estancia houses we visited; it runs downto the RioNegro. After siesta we mounted with Belloso and Kincaid and went to see the rodeo of cows which the papers of Buenos Aires said the Indians walked off with, and following the road at the foot of the hills and along the river, we galloped into town. This road reminded us much of a road we once travelled in Teneriffe. The scenery was delightful; we passed the old saladero of Aguirre and Murga shut up and going to ruins; the place is offered for sale with about 1½ league of good land for $700,000 m|c, but there is no one to pay the money; we suppose the place might be worth about the half; the buildings are extensive, and well situated for the saladero business. In days gone bye there were 200 Basque peones working there and ships around that now decaying old mole, but saladeros in Patagones need not be looked for for years to come; cattle are so scarce, they sell to the butchers for $750 m|c for a novillo, 550 for the Proveeduria, and $300 m|c. al corte.

LONDON LETTER.

(*From our Own Correspondent*)

GENERAL NEWS.

November 25th.

There is a lull in affairs in general, both political and financial. The public has become weary of the platitudes of 'Parliament out of session.' In Ireland the battle between the messengers of peace—sub-commssioners, &c.—and the Irreconcileables still continues, and the occasional amputation of cows' tails, or the murder of a farmer who pays his rent, indicate that the Land League is not dead but sleepeth. Still the work of 'justice, patience and firmness,' as Mr. Fawcett would say, is bearing fruit, and is only disturbed by terror-stricken and vindictive articles, such as we see now and then in the *Times*, suggesting still stronger measures, and reminding the Irish of their relative feebleness, because some years ago, when matters were much worse than they are now, the Irish people formed one-third of the population of the United Kingdom, and at present they are not one-seventh, and only a part, and perhaps not the major part, of that fraction is disaffected.

That is so; but to minds of ordinary nobility it should be a 'raison de plus' for not resorting to brute force, and I think the greater portion, and all the better portion, of the English and Scotch people are of that opinion. John Bright used to say that twenty minutes under water would be the best cure for Ireland. Perhaps firing the Castle and burning every vestige of Viceroyalty and of permanent officialism, if not the officials themselves, would be equally efficacious if less radical. Viceroyalty does not seem to answer even in Canada. Mr. Goldwin Smith attributes the present republican agitation in the Dominion to the appointment of Lord Lorne. That young nobleman found himself married to a princess, and went out with the idea of forming a loyal and genuine appendage to the Imperial Crown, with an Upper House, an Upper Ten, a shoddy nobility, and all complete, for a moderate consideration. Unlike Mr. John Wellington Wells he could not do us horoscopes or monarchies at three-and-six. The Canadians, outside Sir John Macdonald's court circle, do not appreciate his prices or his wares: nor does the Princess Louise like the business, if common rumour is right, she prefers the more expensive but genuine article in the neighbourhood of Windsor.

Count Herbert von Bismarck is amusing himself at Brighton, and until to-day he must have had a favourable experience of the much-abused English November. Throughout the month the weather has been as mild as summer and altogether marvellous. A French paper spread a rumour that Count Herbert, who is appointed as 'attaché' in the German Embassy in London, had a secret mission from his father to offer Egypt to England and so disturb the 'entente' between England and France. Count Munster, the Ambassador, has thought proper to make use of the London *Central Press* to deny authoritatively the 'canard' of *Le Paris*.

You will see that by and bye public attention will be drawn to a curious 'brochure' which has just appeared in Paris with the title, 'Mission Actuelle des Souverains par l'un d'eux.'

'L'un d'eux' is supposed to be the King of Bavaria. At all events, the book is not only excruciatingly German, but even has a smack of German professorism. It is a protest against materialism, and takes a grand bird's-eye view of the playthings of mortals, of Kings and reigning families, of thrones supplanted by chairs, crowns by hats, sceptres by walking-sticks, which occasionally become sabres, and so on. What we are to understand from all this seems to be, that whatever be the state of government, Emperor or King, President or Dictator, at the present day the essence of all governments is purely mechanical, and all but automatical. The vitalising spark that, emanating from on high, kindles in the jewels of the worthily worn and truly God-descended crown, the vivifying element, the motive-power of genuine Monarchy, is absent from the royalty of our times, and Monarchy is as dead and as unprogenerative as the materialistic democracy itself.

Perhaps that is enough for you, and you will recognise it at once as the raving of Kings *en route* to Canossa, and as the promised metamorphosis of sticks into sceptres, hats into crowns, and crowns into mitres.

In the meantime, the present Republican mania appears in Greece, of all places, where there is some fear of an outbreak headed by men of standing, such as Mr. Tricoupis, who propose to form a Constituent Assembly and give King George his passport.

You will have the latest noncable news by steamer. Beyond the finding of Lefroy's pistol and the intended marriage of the Duke of Albany, there is really nothing new to tell you.

There are two questions which must be reserved—namely, the state of the money market, on which every one seems astray, and the prospects of the Gambetta Government in France, a subject that, so far, every one colours with his private fancies. It is not likely to be made too plain by so astute a politician as M, Gambetta.

EDITOR'S TABLE.

The R.M.S. Mondego could not sail yesterday, but will leave this afternoon. Mails close at noon.

The British community were profoundly shocked yesterday morning by the announcement of the death of Mr. Henry A. Green, agent for the Royal Mail Company, who expired suddenly, in his office, on Wednesday afternoon from an attack of apoplexy, surviving the first symptoms only a few hours. Some months ago he had a slight attack of the same treacherous disease, but was supposed to have completely recovered. We offer his afflicted family our most sincere sympathy and condolence on such a sad and sudden event. The funeral took place yesterday afternoon at the British Cemetery and was largely attended.

The most costly and elaborate preparations are being made in "the Village of the plain" for the great Archery Fete which the ladies of that charming suburb have organised for charitable purposes. The ground lent for the occasion by Mr. Unzue is simply perfect for bow and arrow purposes. A grand marquee is being erected. The amusements will not be confined to archery, but will include Lawn Tennis, croquet and many other games, to say nothing of a 'buffet' that will be a marvel itself, and the Monster Cake with 12 gold rings in it, to which we made allusion some days ago. One of the best-looking bachelors connected with the business expressed to us yesterday a private and confidential opinion that the whole thing would end in a dance 'under the greenwood tree,' and *our* private opinion is that it could not possibly have a more suitable or enjoyable ending. All the ladies of all the nationalities in Flores have taken the matter up, and it will be a superb affair. The day, or rather the days (as we believe the fete will continue for two, if not three) will be 12th, 13th and perhaps 14th inst.

Telegrams from Pernambuco to our enterprising colleague *La Nacion* give the European news by the Pacific steamer Magellan, to December 23rd. It is positively arranged that King Humbert will visit the Emperor William at Berlin. Two opposition newspapers in Dublin have been suppressed and their private papers and printing presses seized by the police.

There were 2,000 application for the twenty Secretaryships of the Justices of the Peace in the Capital. The Government House has been literally besieged with applications for a weak past, and yesterday as a last resource to save himself from temporary insanity, the Minister promised to appoint every man Jack of the 2,000, whereupon they all departed rejoicing. The decree is out this morning, and the feelings of 1980 of the lot may be more easily imagined than described. We want the Competitive Examination system in this country. Letters of recommendation are a wretchedly frail basis for an efficient Civil Service.

None of the numerous products of this rich country show greater development than 'musica,' in spite of Congress being cruel enough to allow the 'Escuela' of the article to collapse for want of cash. Every day we find a new quadrille, valse or polka on our table. Yesterday we were favoured by Messrs Rolon & Oca, the well-known musical publishers, with copies of several new pieces got up in a style that reflects the highest […] on this firm, and which London or Paris could not beat.

There is a […] in Cordoba owing to the authorities of Coronda Santa Fe, having swept in as of 'marcas desconocidas' numbers of cattle that had strayed across the frontier, owing to the drought, and which belong to well-known estancieros. This seems rather sharp practice.

The *Ciudadano* calls attention to the shocking condition of the Bermejo so-called station on the Western Railway, where corpses en route for the Chacarita are placed to await the arrival of the train. It is certainly a humiliation to our civilization to see such a mortuary tolerated. Yet, as the *Diario* remarks, our coffins and hearses are models of outrageous and repulsive extravagance. What a country of 'chocante' contrasts this is.

A bone model of a ship in Manigot's window in Calle de Florida attracts great attention. It is perfection, and should be sent to the Exhibition. The price put on it is $2000. It was made by a convict in the Penitentiary. How sad that a man with hands so deft should ever soil them with crime!

A colleague says that our countryman Governor Roach works harder than any man that ever before sat in the Provincial Chair. H. E. goes early and frequently does not leave his office till 8 p.m. Our contemporary adds that Dr. Tejedor's hours at the Provincial Government House were from 2 to 4 p.m., and he always went home under the impression that he had earned his salary.

In Tucuman there is a cry for Wood's or any other Reaper. A deal of the wheat crop has been lost owing to the scarcity of hands to cut and garner it.

The annual picnic of the American Church School at Montevideo comes off to day.

Carnival preparations have already commenced in Rosario, and the Pagan festival is expected to be both wet and noisy.

The Liga Industrial of Montevideo has come forward in a most spirited manner and offered to defray the freight of articles for the Exhibition here, as the Government is too hard up to advance a copper. A Children's Concert is being got up to help the Liga in its laudable purpose.

Mr. Joseph Martinez of Belgrano got a nice New Year's Gift from Dame Fortune—the 8000 pats prize in the Uruguay Lottery. Many happy returns.

The residents of Belgrano are getting up an humble petition to their milkmen, praying that in future, they will sell the milk and the water separately, as the present system of selling them mixed spoils the water completely.

A London colleague says that Peruvian guano is likely to have a formidable competitor in the future in the shape of the animal manure from Australia. A Queensland meat-preserving factory has just shipped 12,900 bags, and a further instalment is to follow. Here is another industry in which the Astralians have left the Plate behind.

Our teeth watered yesterday, when reading our Rio Cuarto Letter (see Supplement) on seeing the splendid bathing accommodation they have in that out of the way place, whereas here in the Capital there is none whatever, although we live on the banks of the finest estuary in the world. We also learn that the Argentine 10th dance. When we were boys the ball-room motto of the British 10th (Hussars) was 'The Tenth dont dawnce'; and they were once turned out of a ball-room 'en masse' by the fair hostess, who cured the regiment for ever of its aversion to Terpsychore by this severe but deserved rebuke.

Let our turfite friends and the general public not forget the races at Palermo to-day. There will also be a Cricket match.

We have Panama papers to December 1st, but there is no news of the slightest interest from that quarter.

Another project for wooden pavement has been presented to the Municipality, by Mr Thomas Nettleship, who wishes to begin with the four squares round the Exhibition. By all means let him begin to-day, so that they may be ready for the Exhibition.

The Provincial Senate is doing its best to starve us all by making beefsteaks, kidneys and mutton chops, to say nothing of lamb's fry, even dearer than they are, by putting a tax on every animal killed in the camp for consumption in town! This is monstrous. The Deputies refuse to sanction the impost. We send them a cordial pat on the back.

Pilihuinca's son, D John Ferreira, a lad of 15, visited Azul lately, and all the pretty girls in the place fell in love with him. He speaks French as well as Grevy and Gambetta put together, and in his manners is more like a Parisian 'gommeux' than an Indian.

Our countryman Mr Peart, of Gualeguaychu, had a narrow escape with his life lately. He dismissed a capataz whom he had detected in cutting and stealing the wires of his estancia. Some days later he found the fellow in company with his peons who were engaged id cutting wood, and while talking to them the man fired a revolver at him from behind and wounded him in the ribs. Mr Peart then drew his revolver and hit the capataz in the right hand and he fell. Then one of the peons fired and wounded Mr Peart in the left lung, whereupon he returned the fire but, seeing all the peons against him, turned his horse's head and galloped towards the estancia. One of the peons got to the gate of the fence before him, but Mr Peart knocked him over with a bullet at 30 yards and gained the house, where, disregarding his wounds, he seized a rifle and dashed out again in search of his cowardly assailants, who fled when they saw the rifle and escaped through the 'monte.' We congratulate Mr Peart on his escape and hope his wounds will be speedily healed: his true British pluck in the affair has justly elicited general admiration.

We have to thank a kind subscriber for his polite attention in sending us yesterday the latest English paper in the Plate—8th December, one day later than the Grecian's mails.

There are 220 men now at work on the Exhibition building. The Argentine and Continental Sections will be finished on Saturday?

Our distinguished colleague Dr. Bilbao arrived yesterday from Montevideo. We feel much pleasure in saluting him.

The *Comercio* declares that yesterday there was another 'doble sello' difficulty at the Bank. Happy are those who have no bills to renew.

The Governor and his two Ministers went to Ensenada yesterday by the first train. Dn. Leonardo Pereira accompanied them. Capital.

Dr. Hector Alvarez, Under-Secretary of the Interior, will go on a trip Southwards the moment his Chief. Dr. del Viso, returns to his official duties.

The Ten Cents War is blazing up again. Telegrams from Valparaiso announce that Admiral Lynch has marched 'into the bowels of the land,' Peru, with 5,000 men.

There was another gale at Patagones yesterday, and the wrecked Condor was dashed to bits.

Number 4,412 won the 10,000 pats prize in the San Luis Lottery yesterday.

There will be a special bull-fight steamer for Montevideo to-morrow.

Dr. Eugenio Blanco, ex-Defensor de Menores, died yesterday. The lamented gentleman enjoyed the highest esteem of all classes of society.

The gold business at present is limited to sales for distant dates; the transactions are few, and some 20,000 pats were done at 25.20 for end of March. The amount of these transactions since the beginning of the month does not amount to much.

In Cedulas A we remark many buyers in the market and fewer sellers than usual. The par quotation is maintained by the Series. In Series E no operations were done, and the business of the day both in Cedulas and gold was dull. The operations of the brokers are becoming more restricted every day, and business is limited to exchange and National Bank Shares.

There was a good deal of animation in Nat. Bank Shares; the sales reaching 8,000 shares. Nevertheless the market does not well enter in to the spirit of the speculation, and much reserve is remarked in the operations of outsiders. The brokers are more prudent than usual, and in spite of the rising tendency of the shares it would be difficult to give the exact feeling of the market. Many discussed the advertisement of the Bank and some difficulties hinged on the date of the meeting, right in the middle of the liquidation, it may be said, since bad weather, &c, might postpone the meeting 24 hours, and clients would be in a fix to withdraw their shares or vote. In all probabilities the meeting will take place on the date fixed and no fears need be entertained in this respect. To-day 1,700 shares were sold cash; the market opened at 125½, last night's closing rate, and closed at 126. For end of January 5,900 shares were sold at 126 and 125¾; we may say rates for end of month closed at 126¼. An operation of 400 shares was done for end of February at 127, which seems a low figure in the opinion of many.

The sales at the ring were—

For Jan. 15th A 10,000 100

Nat. Bank Shares—

For Feb. 28th 400 shares 127

In the Plazas the activity so remarkable during the last days continues. The wool is sold as fast as it arrives.

Mr P V A Reid was welcomed on 'Change to-day.

In pite of the apparent lull in the land business some private operations in frontier lands are being made at the rate of 50,000 m/c per league, good camps.

The death of Mr Henry A Green on Wednesday afternoon, although most sudden, was not unexpected, as but a few weeks ago the deceased gentleman had an apoplectic attack, which passed off but always served as a warning to him and to his friends that his time in this world was fast approaching its close; during the last week, however, Mr Green was about, and might be met every day in business circles, he was taken ill on Wednesday at two o'clock in his son's office in Calle Reconquista, and at 7.30 p.m. then and there expired; his funeral, which took place this afternoon, was largely attended by nearly all the principal merchants of B. Aires. It is remarkable how many of Mr Green's contemporaries are passing from amongst us; the prominent men in this market of the last 20 years are each day becoming fewer. As agent of the great Lamport & Holt line of steamers, and also as one of the founders of the Buenos Aires Great Southern Railway, he identified his name with two of the most prosperous enterprises in the country; he lived to see his family grown up and settled, his sons taking his place as agent for the Royal Mail and as general shipbrokers. Affairs in this country undergo such rapid change that deceased outlived the circle of which some 25 years ago he was so prominent a member, and although some years ago his death would have amounted to more in the market, his loss is not a whit less felt in the wide circle of friends and relatives who to-day mourn his demise.

Yesterday the fine house in Calle Rivadavia, between Maipu and Esmeralda, was sold at judicial auction, 17¾x70, two story house, belonging to the Chaves estate, sold for two millions currency. Sr Rigal buyer. The lower premises rent for 8,000 m/c per month, and the upper for 6,000 m/c; so the place gives good interest on the investment.

At afterhours a crowd of cedulas buyers entered the room, offering up to ½ premium for Series A, at which rate only a few sold, as holders ask 1 premium, and many expect to get 5 premium next month, when the New English Trust Company is established and another million sterling of fresh money brought into the market.

With pleasure we announce that shortly Mr Melchor Rom will leave for England, to open an office in London for the sale of Argentine land in that market; we wish Mr Rom the very best success and doubt not that this new step of his will prove a capital one for him and for the country. Lands in this country are still to be had for a mere song; we heard to-day of the sale of 100 square leagues of land in the Trenquenlauquen district, at the rate of $55,000 per league: purchaser English; the broker who effected the sale made $150,000 commission and the parties who originally bought the land from the Government, cleared on the business 2½ millions currency.

Even on the Bolsa they discuss the board of Education dispute, and as a rule the whole market sides with Mr. Sarmiento. For us it is far easier to conjugate a Greek verb than to judge of the great questions at issue in this matter. Mr. Sarmiento has knocked the legs from under the board table and charged the board with certain frauds which every member of that board is bound to publicly refute. 70,000 pats is too large a sum with a deficit in the treasury for an over taxed public to forget or to remit. Every charge made by Mr. Sarmiento must be cleared up, and it is in the absence of such explanation by the members of this now defunct board, that an over strained over taxed and over educated public, accepts these charges as well founded. Mr Sarmiento has proved the alpha and omega of this educational row, and he retires from the board with flying colors, having kicked down the whole concern and stamped upon it certain charges which it will never do to leave unanswered and unrefuted.

On 10th inst. the Havre wool auction begins, only 5,000 bls. will be offered. Wools keep very brisk in our market, and we never remember a butter or better wool season than the present.

Mr Freund leaves in a few days to continue the survey of land between Colorado and Rio Negro; the telegraph to Bahia Blanca was in working order to-day, and no further news of Indian invasions. So we suppose all is quiet down there; still there is some anxiety to hear from the Rio Negro. Don Julian Belloso has started on commission from General Villegas to purchase 1,000 horses for the troops; no better man for such a commission.

Messrs Baltar & Quesada inaugurated today a new system of sale at the Corrales, selling by auction at the mataderos 60 young bulls and 30 vaquillonas; up to the closing hour of the Bolsa we could not hear the price the animals fetched.

Mr Nash, who has arrived down from Rosario, was welcomed on 'Change and felicitated on the advent of the new year, and a hope expressed that he would keep the country as well supplied with prise foreign cattle in 1882 as he had so well done in 1881. Nash's name is a household word out on all the great estancias; had we a vote in Congress he should get a free 10 league Rio Negro estancia for his splendid and persistent importations of the very best live stock.

The re-election of Sr Marsans, the Bolsa liquidator, was only to be expected; during his year of office he has consecrated all his talent and abilities to facilitate Bolsa liquidations. His election was unanimous, which shows his deserved popularity.

The bills for a further dividend on the Ghiraldez liquidation have been delivered and they are only awaiting the return of the lawyer to make another payment, which will in all result in about 29 or 30 o/o; the matter will then be closed although the clients of the broker will always rest under very serious obligations to a wide ring of brokers.

Down in Montevideo speculation is again raising its head, they have carried the Deuda amortizable to 18½ against 15 last month; beyond all doubt, if things in the Banda Oriental assumed a steadier shape, the stocks there at present rates would be splendid buying.

The R.M.S. Mondego leaves to-morrow with the following cargo—
For Vigo—
3,000 dry hides
1,100 horse hides
For Antwerp—
7,480 salted hides
1,650 bales wool
For London—
200 cases of tongues

Some Bonos Municipales of 1870 were done to-day at 98 o/o; these bonds bear 8 o/o interest, and nine coupons are due on them. We hear that the payment of same will soon be mooted by the President of the Municipality, and the Nat. Government is in honor bound to attend to the obligations.

At afterhours a fair amount was done in Nat. Bank Shares, prices stiffening; sales were effected at 126½, and 126¾; the market closed at the latter quotation. In spite of a large number of Shares thrown on the market during the day, the market did not evidence the slightest weakness.

11,000 Cedulas, Series A, were sold for end of March at 1 o/o premium.

A fair amount of exchange was passed today from house to house, at the following rates:—
On London...... 50½—¼
On Paris........ 5.29
On France....... 5.30
On Antwerp 5.31
On Germany..... 4.29—30

Mr A Mildred, in company with an English gentleman lately arrived from England, leaves on Sunday morning for the South in the steamer Bahia Blanca. We wish them a pleasant trip to Bahia Blanca.

A lot of about 1000 ar. washed Concordia wool, will be on sale at the Once on Friday.

Mr Emil Schröder, member of the Provincial Committee of the Exhibition, informs us that the English Railway Companies of the province have not yet sent in any answer to the request for reduction in freight. We do not doubt for one moment, that the companies in question will acquiesce in the demand. Six hundred square metres of space have been allotted to the province of B. Aires. The camp jueces have been informed that all exhibits must be sent in between this and the 10th of February, and that all the 'guias' of exhibits must be forwarded to the Committee, Calle Alsina, 321, in Mr Butteler's house. Mr A[…]brosetti has been elected Vice-President of the Committee: Mr A. filled the same post, we think, in that of the Italian Exhibition. Requests have been sent round to different departments for statistical information as to the size of estancias, numbers of cattle, sheep, &c.; so that people who visit the Exhibition can form a correct idea of the importance of this province. The attention of the Committee is fixed in all directions, and we compliment same on its efforts.

The following figures shew the blood-stock imported by Messrs Lamport & Holt's steamers during 1881:—
62 horses and mares
233 bulls and cows
189 rams and sheep

The figures we published relative to the exports by this steamship line have astonished many, and show how the productions of the country are increasing. It is calculated that Messrs Lamport & Holt's steamers took 1/5 of the produce of the country. We hear that this great company is at present constructing steamers to enter the Riachuelo. The new enterprise will meet with the greatest success.

It appears that there are no stamps for 1882 in the Stamp Office, and pagarés of 1882 bear the stamp of 1881 with an additional one of the office.

The Frank Marion, aground at the Cerro, Montevideo, is discharging her cargo in order to get off.

The Oriental is reported aground near Rosario.

The Montevidean firm Viladeaval Alvarez & Co. has been dissolved by mutual consent. The house is now known as Alvarez Hnos.

The Sud America arrived in Genoa on the 3rd instant.

The Nord America left Genoa on the 3rd instant with 850 emigrants to the R. Plate.

The business in stocks yesterday on the Montevidean Bolsa amounted to 300,000 pats. The Deuda amortizable continues improving, having risen to 18¼.

The following clearances are reported in the Mount:—
The Ital. barque Coira for Falmouth with 400 tons guano.
The Norw. barque T[…] for Boston with 38,500 dry ox hides.

The sessions of the Asamblea General in Montevideo have been prorogued by President Vidal.

The Denis saladero has sold to an Italian exporter all the ash of the faena at 22½ fuertes per ton on board.

The French barque Cimandef left the Mount on the 2nd with 95 mules, 13 horses and 100 barrels of meat for Mauritius.

It is stated that in some Sta. Fe colonies the population has doubled, and that buyers of wheat arrive in swarms like locusts. In some parts peones are badly wanted.

Mr Hector Alvarez, Subsecretary of the Interior, will leave in the next trip of the Villarino for the South.

The Villarino leaves in a few days for Patagones.

There is an intense disgust owing to the attitude of the National Deputies in the discussion of the budget. The Deputies seem resolved to maintain the budget they sanctioned, and this argues a series of tiring debates. The Senate was right in economising, and the Deputies should well consider the matter before they maintain their decision.

We extract the following from the *Anglo-Brazilian Times* of Rio de Janeiro, Dec. 21st, 1881:—

"There is not the least shadow of reason in the way in which some have sought to explain the fall in Exchange, attributing it to Treasury difficulties.

"To tranquillize the minds of honest people and for the cognizance of commerce, we think it proper to say a few words, to lay the dust raised by the authors of the report.

"By the latest balances of the Treasury it appears that our floating debt, represented by bills and by the account-current with the Bank of Brazil, does not exceed 34,000:000.

"Aside from the sum of 16,000:000, which is only anticipation of revenue and has to be redeemed in the course of the fiscal year, the remainder corresponds to the large balances available in London and the provinces.

"As all payments have been met as due and the Treasury is quite free from embarrassments it may be safely said that it has been only as anticipation that bills of a year's term have been issued at 4 and 4½ o/o.

"The debt whose consolidation is necessary being less than 24,000:000, the government has not considered it opportune to effect any operation of credit to that amount, although having authorization therefor, inasmuch as the receipts of ordinary revenue are meeting the outlay on continuation of the material improvements in hand.

"Some other reason, therefore, should be found for the present fall in Exchange: certainly it cannot be attributed to the Treasury, unless it be pretended that the Treasury's withdrawal from the market has the power to provoke such crises, which is ridiculous.

"Exchange—Our market closed flat at date of our last report at 22d Bank, and 22½ and 22 5/16 Commercial bills. On the 15th, Banks declining to name a rate, private drawers found money at 21 15/16 and ⅞. On 16th, Banks opened at 21½ and maintained that rate until the 20th, when it was lowered to 21⅜, later on to 21¼, and finally to 21⅛, Commercial paper being passed at 21⅛, ⅝ and ¼. On 21st, Banks opened at 21⅛, at which rate a large business was done, but the market showing signs of firmness, money was accepted at 21¼, and transactions in private paper took place at 21 7/16 and ½. On 22nd, Banks opened at 21⅛ and closed at 21¼, business being done in Commercial bills at 21⅝, 11/16 and ¾.

"To-day Banks find no money at 21¼ and private paper is scarce at 21⅝ and ¾.

"On Paris rates have ruled from 432 to 450 reis per franc for Bank, and 428 to 437 reis for Commercial paper."

El Jueves 19 de Enero
A las 8 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exajeracionalguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace area de 31 años.

Los Manantiales—(Plano A)
LOTE No. 1—Una suerte de estancia o sean ½ legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.
LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Heusser Arce y Chautini; por el N. Este con el lote num. 3, y por el S. Oeste con Caquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre: las poblaciones son: sobre el Naposta grande uno de dos piesas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.
La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.
LOTE No. 3º—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro.
El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cua. cs.
La calidad de la tierra es en todas partes vegetal, arenosa, hasta una profundidad que varia entre media y tres cuartas vs. pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.
Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.
Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.
Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macadieu, predominando en un 80 o/o el trevol, alfilerillo, pasto duro y cola de zorro.
Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan paaa el consumo.

Nueva Roma—(Plano B)
Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E, Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S.O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.
PASTOS—Estos son en general cola de zoro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerilio, mostaza y te pampa. Este terreno es apropiado por su mayor estension a la cria del ganado vacuno.
Calidad de la tierra: es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.
AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.
Los verticales, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.
La venta de esta fraccion se hara de la manera siguiente—
Lote No. 4—Compuesto de una y media legua cuadrada.
Lote No 5—Una suerte de estancia o sean tres cuartes leguas con opcion a los Lotes No. 6, y 7, cada lote de ¾ leguas.
Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.
Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.
El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.
Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, yue estos campos en pocos anos valdran de $600 a 800,000 la legua.
Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

RIO CUARTO

(*From our own Correspondent*)

A hot dry summer, filling our estancieros with apprehension, for if it does not rain now, when will it? The rains of Spring have been light and very partial, our pastures are far from being as forward as we could wish, their arid winter aspect has disappeared, making place for one of brilliant green; horses, cattle and sheep are all fat and hearty, they have plenty to eat and to spare of rich grass, perhaps all the richer that it has grown but slowly this season. But we are not content with that, we want a superabundance now so that we may have sufficient later on when inevitable winter has us again in its clutches. The rains have been partial, coming in 'mangas' covering one place in a deluge of water, leaving another only a league off dry as a parched bone, filling up lagunas to overflowing in one night, then visiting them no more, while they steadily reduce their limits under the increasing action of evaporation, accelerated under a burning sun, by equally burning winds.

Some men are at their wit's end for water for their cattle, and drive them leagues in search of it, while others have it in abundance at their doors. The chacareros are having but a poor time of it, as fruit and vegetables are scarce and of poor quality; never was Rio Cuarto famous for quality in the horticultural products, but made up that shortcoming by superfluous abundance To make things worse, a fortnight ago we had a hailstorm of extraordinary severity, which cut the cabbage all to pieces, and even played havoc with the trees, stripping off leaves and branches to such an extent that in many places, particularly about the railway station and along the banks of the river, it seemed next day as though winter had come again, for foliage was no more. To say that the stones were as large as pigeon's eggs would be to greatly understate the matter; congealing together in the air as they fell, they formed rugged blocks of ice, mostly in the shape of flat disks, which falling edgeways cut through everything in their way, and then heaped themselves on the ground in solid masses, many of which in sheltered places did not melt away till the day following when the sun was some hours high. The force of this storm seems to have fallen almost exclusively upon the town and quintas of Rio Cuarto. We have heard in former years of heavy losses in sheep killed by hail, but of this I have not this time heard any complaints.

Another thing which is troubling estancieros is the closing of the saladero at San Nicolas, for many years the principal outlet for the novillos of this district; this has fortunately happened so early in the season, that there is yet ample time to make fresh arrangements for this season's faena, and the supply of novillos promises to be unusually large.

Prices of stock are well maintained, and cattle are constantly moving off to the new camps of the South and West. Wool has fallen to 28 rls. p. ar; the current price last year being 34 rls.

A favorite resort during these hot evenings is Cacase's mill; a large acequia supplies a plenteous stream of water which all the year round drives the mill-wheel, but which in summer does other work as well, greatly to the comfort of the good people of Rio Cuarto. Don Bernardo has built baths behind his mill on each side the acequia, which are plentifully patronized this hot weather at all hours of the day, and further down is a swimming bath, through which a stream of water constantly flows, and where in the open air, shaded by gigantic willows, men disport themselves to their exceeding great delight, after the bath ascending to the willow-shaded terrace to talk, drink beer, and enjoy the evening breeze and the look-out across the river over the wide pampa to the north. This terrace is also at times the scene of yet more festive gatherings; last week a banquet was given there to Colonel Fotheringham, and on Christmas day another to General Racedo, which was followed by a ball to the soldiers of the 10th infantry. Our friends of the tenth have now been stationed here for nearly three years, but are soon to leave us, a detachment of them has already gone to garrison an outlying fort on the newest of all new frontiers, some fifty leagues south from here, right in the centre of the territories 'de la pampa,' the rest of the regiment are to leave in April, and are likely to make things very unpleasant for any Indian marauders who may venture on a visit to what were but a few years ago their favorite thieving grounds to the north and east of Gainza. You may grumble in Buenos Aires at the 'high life' manners of your men in blue and gold, but I fancy they shake off Capuan sloth when they leave your city, for they know little of it up here, and are ready to do good work whenever it be required of them. If Indians are ever more a bugbear, it will not be the fault of either officers or men on the frontier, the fault will lie at head-quarters, in the want of proper organization, and in dependence on half measure like underhorsing the cavalry, and in making no provision for winter fodder, short-sighted economy for which the country pays very dearly when the need arises. A frontier fort without artificial pastures and fenced enclosure for the remounts, is a delusion and a snare, giving promise of security where none exists, and making a fine show on paper, but causing dire woe upon the pampa. Our best wishes will go with the gallant 10th, but our town will not be left undefended; the artillery corps under Colonel Supisiche remains here, but it is still short of its nominal strength of five hundred men, but steadily recruiting.

PARIS LETTER.

(*From our own Correspondent*)

Paris Dec. 3rd.

There is a veritable plague of duels in the air: at least three take place daily in the outskirts of the city: the combatants select the locality as others do a summer resort or a winter residence. The duels do no harm to the antagonists, if a scratch be inflicted, it is generally the consequence of awkwardness: no duel will likely ever affect the depopulation of France. It was generally considered an absolute necessity for a new journal to start into public life by its head editor fighting a duel; the expenses of the rencontre figured on the profit and loss side of the journal's accounts; that trick no longer pays; the newspapers show more and more disinclination to publish accounts of duels, hence why a journal has been specially founded to give the recitals in extenso. Not any young man entering on life on his own account, but subscribes to a fencing school; there are establishments for teaching 161 modern languages that give as a premium, or a bait, free lessons in the foils.

Democratic institutions are not favourable to the preservation of game, so there is a strong opposition being organised to raise the price of licences to an exorbitant point. At the rate John Gilpins now blaze away, neither sparrows nor cock robbins will be obtainable: these birds will have to be imported. Another question that is being warmly discussed, 'Are turtle doves game?' in any case, 'Ought they to be killed and baked in a pie?' The birds are the symbol of innocence and love, and their cooing music of three notes cannot but in the end exasperate even Romeo and Juliet.

A sad case of suicide has taken place: a young lady was engaged to be married, and a few evenings before the happy day, her intended visited and promised to return next morning with some papers to have signed: on arriving, the young lady and her mother were both found dead; the daughter had suffocated herself with charcoal, as an ancient lover had, from a letter found, threatened to kill her, if she married other but himself; the mother perceiving the strong odor, went to her child's room it is supposed, to open a window, and overcome with the fumes, perished. It is not often that a man kills his "novia", because she will not marry him: in September last, a young man Alard, had been ordered to go to Africa as soldier, to serve his twelve months; he was engaged to Elise, a village belle of Remulins, and who since twelve months had been his 'fiancee'; he implored her to marry him before he set off to shoot Kroumirs; but she and her parents refused, till his return, when his warfare would be over; besides, the law does not allow the soldiers to marry. Alard after dancing with Elise at the village fête, shot her in the heart; then dramatically leant over her, intending—it is thought to shoot himself. The jury acquitted him.

Hyacinthe the popular actor, was at one time on the eve of being lost to the stage; during the 1848 revolution he was in the National Guard; his regiment was in a hot quarter; one of the insurgents proved a splendid marksman, but he never aimed only at officers; the General commanding arrived, was informed of the marksman's skill, and suggested to Hyacinthe, who was a full sergeant, to mount the barricade, and when the good shot appeared, the latter would have a dozen rifles levelled at him. Hyacinthe suggested that the general himself, having a more showy uniform, ought to play the role of Horatius—which was declined.

Victor Hugo has declared himself to be a partizan both for the abolition and the maintenance of Senates. That recalls the patriot who had a sword which he boasted was destined to defend—or to combat, the institutions of his country.

A statistician asks, if the forthcoming census will include the number of "bachelors married, and of married men bachelors."

An aspiring dramatist called at the office of a theatrical manager, to receive back his manuscript; a clerk whispered to him; "I do not think your play will be accepted; it had only 80 pages, and we have several of one hundred."

A deputy entreated the parliamentary Commission not to quash his election, in which he had sunk all his fortune, and was father of a family to boot.

A gentleman complained, nothing succeded with him this year; even his mother-in-law, whom he places, between mortal currents of air, theatened to live as long as a carp.

The hearts of women resemble those bonbons which are surrounded with enigmas.

HOWARD'S CELEBRATED MACHINES

Howard's Double Plough.

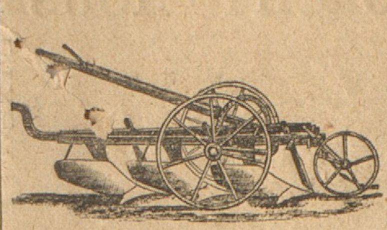

The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts..................
With steel breasts but without coulters
Weight 4½ cwt.

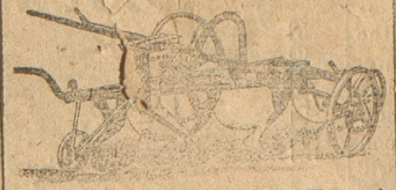

Howard's Triple Plough.

This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts..................
With steel breasts but without coulters..................
Weight 6¾ cwt.

Howard's Maize Drill Plough

The marked success of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth and thus a regular growth of the crop is insured.

With steel breasts..................
With steel breasts but without coulters..................
Weight 5½ cwt.
Maize Drill, £1 13s. extra.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
